

Sample Cutter for Tensile Tester LC-1S

Product Description

LC-1S sample cutter specially used for tensile machine testing is used to cut samples of various plastic films, papers and other materials before stretching, peeling, heat sealing and other experiments. This product has a compact structure, simple operation and easy maintenance. The cut samples are smooth and burr-free, thus avoiding measurement differences caused by poor sample cutting.

Specifications

Item	Specifications
Sample size	15mm×210mm (Optional width)
Number of	10 pcs (Single Layer)
Sample thickness	≤ 300 μm
Product size	395×280×250mm
Weight	14.8 kg

Features

- ◆ All made of high-quality steel, compact structure, easy to assemble and disassemble.
- ◆ Sturdy and durable, labor-saving, simple to operate and easy to maintain.
- ◆ The cut samples have precise dimensions, no damage, and smooth edges without burrs.
- ◆ Different cutting widths can be customized according to each household's requirements.

Note: GBPI is always committed to product innovation and improved performance, so accordingly product technical specifications are subject to change without notice. GBPI reserves the right to amend and the final power of interpretation.

Service Commitment

- ◆ Free packaging inspection technical support.
- ◆ One-year warranty for instrument, free software upgrade service, and lifetime free technical support.
- ◆ Free to the factory to train the operation of the instrument, qualified people issued graduation certificates, free accommodation and food.
- ◆ Instrument “trade-in” policy and provision of backup instruments in case of failure.
- ◆ There is a testing center (CNAS L8185) to provide incoming sample testing and sample data comparison services.
- ◆ Set up a Reference Standards Development Center to provide calibration services.

Company Introduction

Guangzhou Biaoji Packaging Equipment Co., Ltd. was established in 2002 and located in Guangzhou Economic Development Zone. It is a company integrating R&D, production and sales of packaging testing instruments, packaging equipment, modified atmosphere preservation equipment and other products, as well as providing third-party testing and standard material proficiency testing. It is committed to providing comprehensive, professional and high-quality products and technical services for packaging, food, medicine, testing and other industries.

Write industry standards with quality, and become the leader and leader in the field of global packaging testing. The 80,000-mile journey is sailing, and GBPI will escort you!
